

# RAL GÜTEZEICHEN

## Controlled quality

The **GEG Gebäudedienste GmbH, Friedrichstr. 11, 55237 Lonsheim** is entitled, following a successful routine test by RAL Gütegemeinschaft Gebäudereinigung e.V., to use the RAL Gütezeichen (*Quality Mark*) recognized by RAL Deutsches Institut für Gütesicherung und Kennzeichnung e.V. (*German Institute for Quality Assurance and Certification*) and protected by registration at the German Patent and Trademark Office with the license no. 144.

The use of the RAL Gütezeichen (*Quality Mark*) for building cleaning requires compliance with the relevant legal requirements. In addition, the company shall undertake to adhere to the strict requirements of quality assurance RAL-GZ 902 for building cleaning at all times. These include:

#### **Monitored high quality**

In-house self-monitoring and regular neutral external monitoring ensure compliance with qualification requirements.

#### **Proven suitability**

The specific suitability of the personnel, machines, materials and other work equipment used for the respective services is an integral part of the guaranteed requirements profile.

#### **Transparent price/performance ratio**

Clearly defined and agreed service components specify the obligations and duties of the service provider and ensure that the customer's performance requirements are met.

#### **Environmentally-friendly hygiene technology**

Only cleaning agents that are ecologically safe for their intended use and meet surface protection requirements are approved for cleaning services.

#### **Compliance with labour agreement, social security and tax regulations**

The monitoring shall also include the strict compliance with labour agreement, social security and tax regulations.

Berlin, 25 February 2024
